After 30 years in the wedding business, we understand that wedding photography is not only about posing and cameras but also being friendly, organized and dedicated to making your wedding day wonderful. To that end here are some of the reasons to choose Dwyer Photography:

We always bring an assistant. It is their job to keep you comfortable; carry your train, fetch water, help find people etc.

We only photograph one wedding per day. You have our undivided attention; we won't be in a hurry to duck out. This is especially important because stuff happens. The limo is late, you forget something, and we will always be flexible and cover what we said we would.

"Our experience with the Dwyer's was awesome - from engagement pictures to wedding day. Their calm and creative style allowed us to relax and have fun!" Mandi Lang

We will deliver on our promises and we will be here when you need us!
